Analysis of Results:

In the third quarter Steak n Shake's same-store sales advanced 4.9%, principally because guest traffic expanded by 4.8%.

The amount of realized investment gains may fluctuate from period to period. Because no predictive value exists, we encourage investors to analyze closely our business performance before they interpret the impact of realized gains.

Net earnings in the current year-to-date period were significantly impacted by realized investment gains and an incentive fee earned through the Company's subsidiary, Biglari Capital Corp., manager of The Lion Fund, L.P. (On a pre-tax basis, investment gains were \$4.4 million, and the incentive fee was \$2.5 million.) Shareholders should also note that an incentive fee is assessed only once annually in the calendar year-end quarter, and no predictability of such earnings exists because The Lion Fund's annual performance is unpredictable.
